THURSDAY, NOV. 21—P. M.

The dulness of the Stock Exchange to-day was only relieved by the manipulation of the North-western and Lake Shore stocks, the remainder of the market presenting a fatigued appearance, with a downward inclination for prices, except when rallied by the spasmodic advances of the stocks named.

Even the St. Paul stocks to-day were dropped from the list of active stocks, that of Lake Shore perhaps being substituted for it. Northwest common stock sold 4 1/2 higher than yesterday, at 45 1/2, but it ended as it closed last night and as it opened this morning, at 44 1/2. The preferred stock made no improvement over the best price of yesterday, and closed 1/2 lower than last night. Yet the movement was so well regulated and the apparent excitement so evenly sustained at the proper pitch that it was common to hear the remark, "The Northwest are very strong." Lake Shore, which opened at 68 1/2, was subject to the same kind of treatment as the Northwest, and advanced to 69 1/2, closing at 68 1/2, 1/2 better than yesterday's last price. The St. Pauls, after small fluctuations, show final losses of 1/4 and 1/2 for the common and preferred shares respectively. Michigan Central and Erie were also lower, as were also the Western stocks generally. The coal stocks, without breaking, were all lower, the principal activity being in Delaware, Lackawanna and Western, which were down 1/2, and in the stock, advanced from 96 3/4 to 97, and closed at 96 1/2.

The market closed dull and weak.
